**About Longslice Brewery:**

Jimmy & John, the Peat brothers and their longtime friend Sebastian Lesch created Longslice Brewery on March 20th, MMXIV (that's 2014, but it looks way cooler in Roman Numerals). Longslice is a Toronto-based brewery committed to making only high quality ales and lagers at affordable prices.

Longslice Brewery doesn't take itself too seriously. With a good pun, Longslice Brewery talks to those who like a good easy-drinking regular beer, clean and refreshing.

Longslice Brewery wants people to feel empowered to be themselves - no matter what colour, shape, or form that comes in. Learn more on LONGSLICE.COM
